

I am the General Manager for the station and I need to tell you that because we are placed under the University's budget, we cannot afford the extra expenses of doing this. We cannot afford to get a program or to get the equipment needed! It is impossible. The University is already looking for a reason to shut us down, by doing this you are giving them the reason to shut us down! You cant do this! How dare you have the audacity to shut down an educational environment. Don't do this!
